

Welcome to Mennoos Kookerij

At Mennoos Kookerij, everything revolves around craftsmanship, passion, and flavour, but above all, people.

We are an inclusive restaurant, where people with and without a distance to the labour market work side by side. Paid staff and participants in learning and development programs form one team, because we believe: life is sometimes easy, sometimes challenging, and in those moments, it helps when someone believes in you.

We combine care and hospitality in a unique setting. Under the wing of care organisation Omega Groep, we've created a place where you can enjoy a delicious dinner, and an inspiring story of social involvement. A place where people learn, grow, and contribute, where we believe in potential, not limitations, because we make it work!

Our kitchen is homemade, fresh, and familiar, with flavours inspired by cuisines from around the world. Every plate consists of carefully prepared elements, often made by our participants.

We change our menu every two months, so regular guests can keep discovering something new. Only our famous Mennoos Burgers are always on the menu.

Mennoos Kookerij is more than a great night out. We also offer sustainable catering on location or in-house, and we're happy to help think along for any celebration or event, from simple to chic. Just ask our team for more information!

Come taste, experience, and connect at Mennoos Kookerij.

We warmly welcome you!
